

FCC Statement:

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to

correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is needed.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

FCC Caution:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Features:

- USB 1.1 full speed compliant stereo audio transmitter
- Plug and play USB transmitter
- Compatible with Win98SE /WinME /Win2000 /WinXP and MacOS 9.2.1 /MacOS 10.2 without additional driver
- 2.4GHz GFSK transmitter with 15 selectable channels
- Supports direct line in playback via 3.5mm audio jack

Product Overview:

USB Transmitter

No	Item	Description
7	Channel Key	To switch transmission channel
8	Channel Key	Not applicable for this model
9	LED Indicator	To indicate status of USB transmitter

Operating Instructions

A. Wireless Transmission Operation

1. For USB power, simply connect the USB cable provided from any USB power adapter or PC port.
2. Connect the USB transmitter to computer and LED indicator is lighted up. The USB transmitter is automatically powered up upon connection to PC.
3. There might be cases whereby the wireless transmission will interfere with other wireless connection available in the premises. Should there be any interference and noise from the speaker, press the “Channel” key on the transmitter and it will automatically switch to a clear channel.
4. To disconnect the USB transmitter, simply unplug the USB transmitter from the PC.

Technical Specification

RF Operating Frequency	2400 ~ 2483.5 MHz
Channel Number	15 selectable channel
Wireless Transmission Power	10 dBm
Channel Spacing	2 MHz
Transmission Data Rate	Up to 2 Mbps

Note: Specifications subject to change without prior notice
